PDF Form Fields

This document demonstrates interactive form fields built with the low-level PDF form API. The surrounding document layout is handled by renderTemplate, while form fields use the specialized page methods.

The fields below are positioned with absolute coordinates on a dedicated form page.

PDF Form Fields

Text Field

John Doe

Checkbox

☑ Subscribe to newsletter

Choice Field (Combo Box)

United States

Choice Field (List Box)

TypeScript
JavaScript
Python
Rust
Go
