Document Review

This document demonstrates how annotations integrate with the renderTemplate block system. Annotations are placed inline within the flow layout, following the surrounding text.

The sentence above has a highlight annotation rendered as a template block, making it easy to mark important passages inline.

A sticky note annotation is placed to the left. Click the note icon in any PDF viewer to read the reviewer’s comment.

Approved by ReviewerMay 12, 2026

The free-text annotation above displays approval status directly on the page without requiring user interaction.
